Land Grant Model
- Land Grant: address state needs through research, teaching, and service (extension)
- Permanent two-way link between academia and society’s needs
- Partnership between federal government, states, and LG institutions

Cambio Center “Model”

- Problem oriented and proactive
- Multidimensional problems require multidisciplinary approaches
- Sustainability requires involvement of all stakeholders (newcomers & receiving)
- Integration vis-à-vis assimilation

Since Cambio de Colores 2002…
Premise

“Recent developments in the cultural identity literature can help us move beyond a deficits approach to viewing culture not as an obstacle but as a resource from which individuals draw to create strategies to function in various domains in society (Berry 2003). This approach shifts our attention to looking at how the newcomers opt and lose in the process of integration into the host society. This approach helps us to ponder how we can engage them in the future development and prosperity of the new settlement communities.” (Asset Accumulation Strategies, 2006)

Vision - Newcomers and their families integrated to their new settlement communities; Pluralism

The purpose of this research is to examine the strategies newcomers employ to accumulate assets, minimize their vulnerability to risk exposure and become part of their new communities.

“Getting by and getting ahead”

- The following questions guide the study:
  - What are the strategies Latino immigrants use to integrate into communities and lead sustainable, high quality lives?
  - What factors facilitate or impede their economic integration?

Focus Group Process

• Purpose of the Focus Group Project
  – Develop a picture of how immigrants are integrating economically and socially
  – Develop a sense of immigrant perceptions on community climate and identity
  – Develop an understanding of their perspectives on culture, identity and how the immigration process has affected those perceptions.
  – Develop a framework for further analysis of social relationships and their effect on economic and social integration and community climate.

Focus Group Process

• Observations on the process so far…
  – Connecting to community partners
  – Diversity of the participants
  – Relationship between the facilitators and the participants
  – Differences between the men and women’s groups
    • Women’s Isolation
      • Perspectives on differences in culture and discrimination
      • Attitudes towards sharing in a group
  – Time and Place are important
